Experience

General Directorate of Combating Violence Against Women and Families (DCVAW)	02/2026 – Present Erbil
---	----------------------------

Freelance

Under Development

Dr. Tarik A. Rashid Portfolio 🔗	12/2025 – 02/2026 Erbil
--	----------------------------

- Architected a custom Headless CMS from scratch using Next.js 16 and PostgreSQL, enabling the client to manage and publish academic research papers and media updates through a private, secure administrative dashboard.
- Developed a full-stack REST API to handle complex relational data, ensuring seamless synchronization between the PostgreSQL database and the frontend with optimized query performance.

- Integrated an AI-powered Chatbot to automate user engagement, providing visitors with instant, context-aware information regarding the researcher's publications and academic history.

Dr. Aram Bakhtiar portfolio 

10/2025 – 12/2025
Erbil

- Freelance**
- Engineered and implemented SEO best practices, achieving a performance ranking of 95%, and integrating map functionality for clear address display.
 - Developed and deployed a professional portfolio platform using WordPress and Elementor, enhancing the practice's digital presence and authority.
 - Structured the content to clearly detail the doctor's specific medical expertise, professional summary, and qualifications.

Dr. Awara rasoul 

09/2025 – 10/2025
Erbil

- Freelance**
- Developed a responsive, SEO-optimized web presence using **Next.js** and **Tailwind CSS**.
 - Leveraged **Next.js Server-Side Rendering (SSR)** to provide a seamless user experience and improved indexing for search engines.

Rekan Group 

11/2024 – 02/2025
Erbil

- Freelance**
- Modernized entire tech stack from unmaintained PHP 2015 to secure and scalable web architecture in Next.js/TypeScript, eliminating 15+ security vulnerabilities.
 - Fixed critical business issues including broken SEO and converted a broken 2-language system into a fully functional 3- language (Kurdish, English, Arabic) platform.
 - Built secure headless CMS enabling full content control, reducing update time by 90% for non-technical team.
 - Secured infrastructure with Cloudflare integration, blocking DDoS attacks and 1000+ malicious requests every month.
 - Delivered complete ownership - client controls domain, hosting, and code, eliminating unreliable third parties.

Education

Bachelor of Science in Computer Science
Knowledge University
